

## CV - Lyle Slater

Name

**Lyle Slater**

Position

**Field Manager,  
Brisbane**

Year of

commencement with  
Morrison Geotechnic  
**2002**

### Qualifications & Affiliations

Advanced Certificate Municipal Construction Works (Toowoomba TAFE)

Advanced Certificate Construction (Open Learning Institute of TAFE)

Certificate III - Construction Materials Testing

Lyle started with the company in 2002, working his way through his training as a Laboratory Technician then Field Technician during his early employ. During that time he gained a good understanding and sound knowledge of the principals of laboratory testing and field work.

In 2013 he accepted the role of Field Manager for our Brisbane Laboratory.

Lyle manages the field work for large scale residential and industrial developments in South East Queensland, overseeing major infrastructure Level One Earthworks and Level Two Roadworks projects which comprise Earthworks Fill, Road Pavement and Service Trench constructions.

Lyle manages our team of Field Technicians ensuring their training and skills are maintained to a high standard. Lyle is an integral member of our team.

### Recent Project Experience:
